

# Gantries

The lean rack rail-pinion transmission guarantees high reliability and high accuracy  
Strong profile aluminium beam offers high inertia and high rigidity in torsion  
Standard product assures short time delivery

→ Fives Cinetic, at the core of transport automation

Engineering and manufacturing custom assembly and test solutions for over 40 years

*Fives Cinetic's priority is to provide our customers with flexible options in transport applications*

### ■ Standard Gantry Products

- T100-T150
- T2
- T4
- TX2

### ■ Features

- Single Arm
- Dual Arm
- Multiple Axis
- Electrical Carriage

### ■ Applications

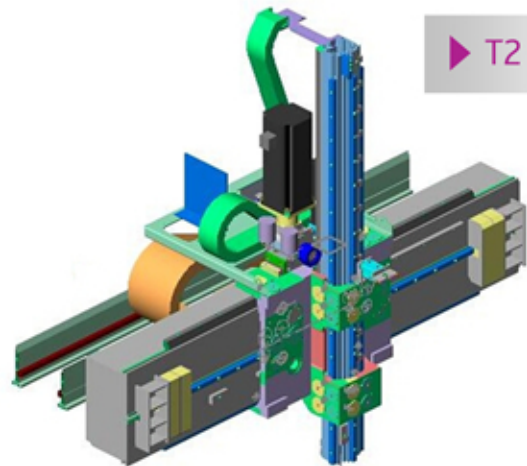

- Machine Loading / Unloading
- Part Transfer
- Storage and Retrieval
- Cell Control

### ■ Special Applications

- Foundry Applications
- Pack-In / Pack-Out
- Part Buffers

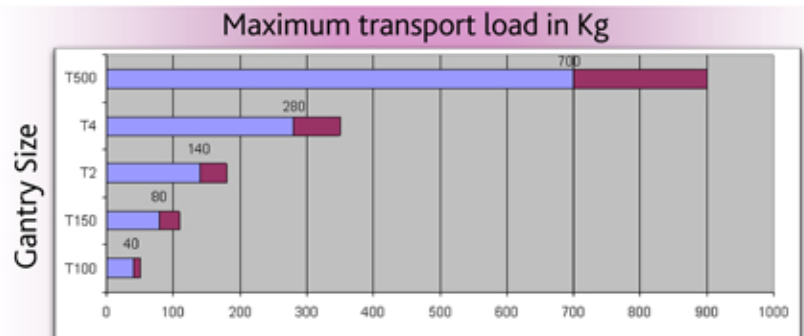

### ■ Auxiliary Equipment

- SPC Stations
- Conveyors
- Gauge / Inspection Stations
- Guarding and Drip Pans

▶ T2 Gantry

### ▶ Single beam gantry transport tolerance

### ▶ Area gantry transport tolerance
